

Hello Client!

My name is Carl. I'm with Images by Gerace. We are available for your date. It is a privilege to be considered as a part of your big day! In this email, you will find information about our services and a list of investment options. If you have any questions please don't hesitate to call us. We want to know all about you and your plans. What are your ideas for your special event day? What do you envision as your perfect day?

Top questions to ask your potential vendor:

Finding a wedding Photographer and PhotoBooth is one of the hardest tasks for your big day. This is the person that acts on your behalf and interacts with all of your guests and chosen vendors. They are the visual and auditory representation of your wedding. If you are still searching for the best photographer and Booth to manage your event, we would love to talk to you!

The Booths – Award Winning Every Year Since Our Start in 2009

What do you want in a photo booth for your event?

We started our photo booth business to solve a problem. As and photographers by trade, we wanted more for our clients than the photo booths we experienced, and still experience, from other services. We wanted an alternative to the big black booths which took up huge amounts of space, did not look very nice, use black curtains, took poor quality pictures, took forever to print, had little to no options, set up in front of guests, had poor quality props, put their website on the clients prints, had a large number of costly up charges, and didn't seem to care about the very special events happening during your reception.

It's all about the experience.

We are here to change all of that! We offer both open and enclosed booth. Our open booths look MUCH nicer than any others we've seen. Our open booths have a much smaller footprint. We need be versatile and can fit in some unique spaces. We offer inflatable (air Booths) or Curtains. We have 16 specialty backdrops to match your event. Our curtains or special backdrops provide much more complimentary photos over black curtains. We use canon t5i cameras and top model DNP printers. This provides the best quality and fastest printing available. We also print up to three 4x6s or six 2x6 strips per sitting. This all makes for an average of 7 times more prints than other services. We provide all of our options at no additional charge depending on availability.

[Top Questions to Ask When Hiring a Photo Booth](#)

We only run 4 hour packages for wedding receptions. Photo booth services that offer three hours are missing a few very important details about a wedding reception. If you run at the beginning of your event, your three hours turns into 90 minutes very quickly because of dinner. We also don't like when a photo booth is running during toasts, prayer, and introductions. This takes away from those moments with loud distractions. Now, if the photo booth were to run the last three hours of the event, they will be setting up in front of your guests. We don't want that either. We run your photo booth for cocktail hour, close for dinner, and open for our remaining three hours of service. This lets us not only be, "out of the way," but also gets you using the booth

during high volume times. We don't want you paying for time when the booth doesn't even have a chance to be used much.

Our prop selections is made up of high quality PVC. We want durable, vibrant, and long lasting props. Something that looks nice in pictures. Each booth set up goes out with \$400-\$600 worth of props. We pride ourselves on the best selection in quality props. We try and stay away from the cardboard on a wooden stick, which most photo booth services use.

We create custom designs, from scratch, for each of our couples. We want something special to your day. Something that will not be seen at any of your friend's or relative's weddings. Something that matches your event or invitations. Something to be proud of and an integral part of your wedding day memories. Most photo booth services will put their name, website, or number of your prints. We do not brand your photo strips. A photo booth service who puts their website or phone number on your photo strips when you hire them for a service is not thinking about you. They are only thinking about their next event.

Many other ways we are better include, we always have our booths attended, we use full size memory books and scrap booking additions, we provide the lowest cost per print of any photo booth company in our area. Guests may choose between Color, Black & White, or Sepia photos. A digital copy of your event photos immediately following the event (flash drive) is provided. This includes the original full size photo, the print, and a GIF file if multiple photos are taken. Clients receive an online galley of all events photos if they so choose.

Our speed is one of our main benefits, especially for groups over 100. We want people in and out and back dancing. A 6.8 second print and cut time instead of the typical 40 seconds means you get many more prints and two distinct run throughs, initial, and party shots later in the evening. We usually take three instead of four pictures and our photo strips come out cut. This all adds up to an average of 7 times more pictures/prints over all other photo booths. Other companies would have to bring 5-9 photo booths for you to get as many prints as one of our booths.

How do we know we are better? We get to see many other photo booths while working our other services. **Let us show you set ups and sample strips side by side.**

All clients who have met with us and have seen the difference between our photo strip & set up quality compared to other photo booths in the area, have booked with us.
